

LINUX LOADFEST

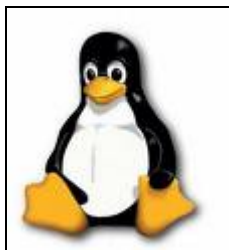

Learn about Linux
& Free Software

December 13th, 2007

10am-4pm

What to expect:

- Hourly presentations on the available, free software which runs on Linux
- Get your questions answered by the experts
- An opportunity to install Linux on your PC

Curious about Linux? Interested in learning more about the free software that runs on Linux? Here's your chance!

On December 13th from 10am-4pm, Premier Knowledge Solutions is hosting a Linux & Free Software Extravaganza. Learn about the free applications and how they can help you solve your everyday computing problems.

Additionally, we will have hourly presentation on a few of the free software tools that are available now. Topics will include: Firefox, Thunderbird, OpenOffice Write, Calc and Impress, and more. Let us show you how Linux and the compatible programs compare to commercial software available in the marketplace.
